

The screenshot shows the STN Explorer web interface. At the top, there are buttons for 'New Query', 'Save', 'Browse', 'Queue', and 'Clear'. Below these, a search bar contains the text 'band 10'. To the right of the search bar, there are buttons for 'DBs' and 'Plurals'. The 'DBs' button is highlighted, and a dropdown menu is open, showing the following databases: 'USPAT', 'US-PGPUB', 'EPO', 'JPO', 'DEI', and 'Plurals'. Below the database list, there is a section for 'Default operator' with a dropdown menu set to 'OR'. To the right of this section, there is a checkbox labeled 'Highlight all hit terms initially' which is checked. The main search results area is empty, showing only the search term 'band 10' in the top left corner. At the bottom of the interface, there is a navigation bar with buttons for 'All Items', 'All Results', 'All Docs', 'All Refs', and 'All Links'.
